

# SECURE FORESTS CIC

## Background:

- Secure Forests CIC Ltd is a non-profit organisation dedicated to key conservation objectives. We are trainers and consultants, who are ex-military veterans and conservation scientists, who are dedicated to protecting our natural environment using the practical skills and knowledge as a "Force for Good". For this purpose, we need highly trained and skilled, self-reliant people, who we can offer a unique opportunity, which could lead to an exceptionally rewarding career in Land Management and Global Conservation.

## Aim:

- Our aim is to train and equip qualified and skilled veterans and blue light services personnel who are prepared to enter a future in this globally significant workplace, to go on to further and higher education, or pursue any career that requires Land Management skills to support it.

## Goal:

- To provide veterans and people from the blue light services access to professional vocational outdoor training. This will enable successful candidates to work in the environmental sector and contribute to the protection of the natural environment.
- Secure Forests CIC Ltd will manage and arrange voluntary work experience opportunities to support this experience and course qualifications which could lead to a full and rewarding career.
